

Kenworth T300

Kenworth® T300 - Your're not just in the business to run trucks, but to profit from them.

That's why Kenworth thought you'd appreciate another non-CDL version of its proven and popular T300. This Class 6 chassis incorporates all the visibility, maneuverability and advanced ergonomic design advantages of its Class 7 big brother. Which means you can depend on it to deliver the goods... productively, efficiently and at a lower cost over its life than just about any other truck you can name. Plus it's easier, and more comfortable.

Here are some basic features:

- 22-foot load space
 - 26,000 G.V.W.R.
 - Paccar diesel PX-6 220-H.P. to 300-H.P.
 - Allison 3000 push button transmission
 - 270-Amp alternator
 - Fuel tank size varies
 - Air ride / air brakes
- 22- to 30-foot load space
 - 33,000 G.V.W.R.
 - Paccar diesel PX-8, 330-H.P.
 - Allison 3000 push button transmission
 - 270-Amp alternator
 - Fuel tank size varies
 - Air ride / air brakes
