

Franchise XL - MT45

This Mobile Tool Store is designed for the first time dealer just starting out or the veteran dealer looking to add another Mobile Tool Store to his territory.

The MTS Franchise's interior is a selection of premium point-of-purchase displays, shelving, lighting, and storage features designed to:

- Professionally merchandise your products
- Compliment your sales effort
- Accommodate changing product lines
- Increase visibility, and sell more tools

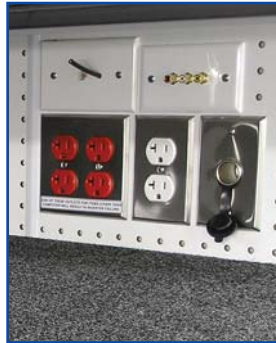

This mobile tool store is made to last, with LDV's durable construction, superior workmanship, high-quality fit-and-finish, and the best components the market offers.

Here are the features in this MTS Franchise interior:

- A 53,000 BTU, engine-driven air conditioning system
- An 84-inch wide tool box area with smooth plate floor on driver side and a 58-inch wide tool box area with smooth plate floor on curb side
- 10 carpeted shelves with extruded aluminum faces for product family signage
- Four all aluminum, full extension, shelf mounted MVP drawers
- 20-inch wide Snap-on rainbow workstation
- 14-inch wide plastic hammer rack with 24 slots
- A 1,600-pound tailgate with extension for handling large tool boxes
- Diesel furnace
- 116 square feet of ceiling and wall lace storage with heavy 3/16-inch thick lacing
- Three ceiling mounted 6-inch fans
- A ceiling mounted power roof vent
- Much more

◀ The street side interior features five carpeted shelves, an air tool display, tool box area and vice station.

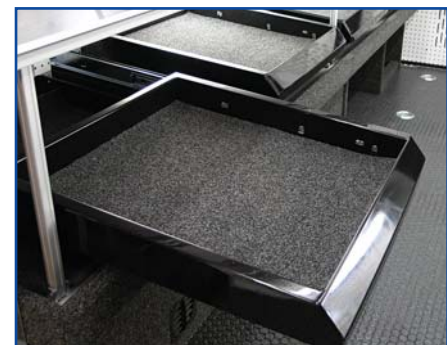

▲ Telephone jack, DVD Audio/Video inputs, computer/printer power (orange) and demo power outlets are located together for ease of use and hidden away under a shelf.

▲ Curb side interior features a 50-inch rolling tool box area with diagnostics display, a rainbow workstation, 32-slot hammer rack, five carpeted shelves with lighting and four shelf mounted drawers.

▲ The extruded aluminum shelf (shown above) is designed to offer you optional graphic signage capability, and dual extruded aluminum socket display.

▲ Four MVP style drawers, located on the bottom shelf allow for easy access and organized display of products.
