

Adjustable Diagnostic Display

PN	Description	Price
68160295	Adjustable Diagnostic Display	\$224.00

Creating high visibility of your Diagnostic product line is easy to achieve with the new Adjustable Diagnostic Display.

Consistent with the look of the Power Tool Display, the Adjustable Diagnostic Display allows you to show off your diagnostics in an all new way! Featuring the Snap-on "S" cutout on the sides with four powder-coated vertical trays, the new slim line design is only 20-inches wide and 30-inches high. The display angle brackets can be adjusted and spaced for a unique merchandising and demonstration area.

This attention-grabbing retail display organizes and showcases the Snap-on MODIS, SOLUS Pro, Vantage Pro, and ETHOS hand-held diagnostic products and accessories. The new Adjustable Diagnostic Display has two mounting options; the 30-inch long side angle brackets mount on E-track or directly to wall.
