

XLERATOR

Display Drawers

Now you can organize and merchandise your hand tool product lines more effectively with XLERATOR Display Drawers.

These heavy-duty aluminum drawers come in two interior sizes (21- and 28-inch width) and are designed to easily mount on existing LDV shelving units. You can organize complete tool sets like ratchets, wrenches and screwdrivers as well as larger boxed sets.

Customers will not strain to look under shelves; to open the drawer simply release the hidden drawer latch and pull. The drawer is designed to fully extend into the

aisle. Your customers can view your products without having to strain or bend over. Beneath the drawer is hidden storage for additional tool sets and complimentary products. The inserts and dividers keep your tool sets neat, organized and separated to avoid damage.

The XLERATOR Display Drawers can be ordered with different drawer inserts and dividers.

For more information on the XLERATOR Display Drawers contact LDV at 1-800-558-5986.
